

Oval Bulkhead

OUTDOOR

IP65

A precision-engineered LED outdoor delivering reliable, high-quality illumination.

KEY FEATURES

E27 outdoor

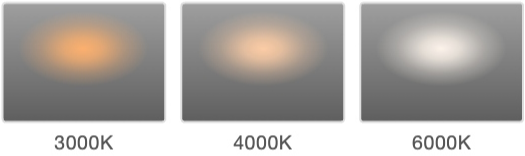

The E27 outdoor delivers - colour rendering for accurate, true-to-tone light, with a 120° beam for broad, even illumination, housed in a aluminum + pc body for effective heat management and a long service life. Rated IP65 for wet and fully outdoor locations.

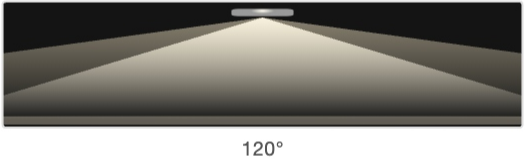

TECHNICAL SPECIFICATIONS

Light Source	E27
Power	E27
CCT	3000K / 4000K / 6000K
CRI	-
Beam Angle	120°
Input Voltage	220–240V AC
Material	Aluminum + PC
Finish	White / Black
IP Rating	IP65
Dimming	On/Off
Warranty	5 years for fitting

AVAILABLE VERSIONS

Code	Power	Luminous flux	Size
OD-RY-BulkHead2-E27-BK	E27	-	L280xW185 × H80 mm

Photometric reference: Photometric data measured at 3000K / CRI 80, Ta 25°C, nominal mains. Luminous flux tolerance ±10%. Lumen output and efficacy vary with correlated colour temperature (CCT) — warmer tones (2700–3000K) are typically lower and cooler tones (5000–6500K) higher — and reduce as CRI increases (90+ CRI is ~10–15% below 80 CRI). Full IES / LDT photometric files, LM-79 / LM-80 test reports and DIALux data are available on request.
